Waiver, registration and agreement for Soul Plan Practitioner Course attendance

Welcome and background

Congratulations on choosing to become a Soul Plan Practitioner. You are joining a growing team of 'Soul' advisors, coaches, therapists and healers who have been drawn to sharing the knowledge and benefits of Soul Plan with the world.

It is important that you fully understand and adhere to the requirements and ethical principles as outlined below in this agreement. All references to HHC refer to Holistic Healing College in the following text:

Soul Plan is a system of life purpose analysis and energy healing. It has its roots and derives its basic interpretations from the Ari Gra version of the Sefer Yetzirah and includes a gematria system of calculation that was probably passed onto Frank Alper by the Hebrew scholar Aryeh Kaplan or was otherwise channelled/created by Frank. What we know for certain is that Frank channelled 22 symbols that accompany the 22 letters and interpretations as described in the Sefer Yetzirah. The system has been developed and modernised into a modern counselling and coaching tool by Blue Marsden who has added further interpretations based on practical observation of thousands of clients, in conjunction with archive and anecdotal material provided by Katharina Alper (Frank's life and teaching partner). The work also benefits from research into hebrew and kaballah and new channelled/created additional material including titles for the 22 energies, soul messages, affirmations, belief identification and a method of energetic healing. The culmination comprises the new name Soul Plan which Blue chose for the accompanying vibration and therefore it would be incorrect to use this interchangeably with other derivations.

Soul Plan copyright is specific to the original material outlined in the book Soul Plan and shared between Blue Marsden and Hay House, Publishers. The symbols and Frank Alpers spiritual legacy and material is held by Katharina Alper.

Limits of responsibility

The Soul Plan teachers work independently but it is on their trusted recommendation and established knowledge of the material that on successful completion of the course (as recognised by your teacher) HHC will issue you with certification and license to practise Soul Plan Reading and use the designations Soul Plan Reader or Soul Plan Practitioner that have gained 'acquired distinction.' Soul Plan Reading is now a recognised therapy by several insurance companies and with this certification you will be eligible to obtain professional indemnity insurance to practise.

Ethics

1. It is expected that practitioners strive to conduct themselves in a dignified and respectable manner.
2. Practitioners are expected to obtain indemnity insurance and are advised to ensure that the premises they practise from are insured for public liability.

3. Confidentiality: client information is strictly confidential and should never be disclosed unless there is evidence of danger to the client or another or where legally required. As far as demonstrations, case material, audio/video recording or any educational or training is concerned: written permission from a participating client must be obtained.
4. Exploitation: practitioners assume a privileged level of responsibility in their work and with the techniques they have learned and must not abuse this. In the event of a sexual or romantic relationship developing between the practitioner and client they should immediately cease to accept fees and refer the client to another practitioner.
5. Advertising: practitioners should not claim cures nor imply superiority over other therapists/or methods.
6. Discrimination: practitioners will not discriminate on the grounds of difference e.g. racial, sexual.
7. Limitations/Professional Development: practitioners are expected to pay attention to their ongoing development, keep abreast of the latest developments and take further development/review courses where possible. Practitioners must not attempt to deal with cases that go beyond their level of knowledge e.g. severe clinical depression, those who are referred to as 'psychotic' by the psychiatric profession or work unsupervised with children under 16. Where a client is taking medication/has a background of health problems, the Practitioner must obtain consent/liaise with their medic..
8. Fees – must be disclosed to your clients before commencement of sessions and if you will charge for going over the normal session time your client should be aware.
9. Soul Plan can work very well in conjunction with other modalities but cannot be mixed so that it becomes unclear what is Soul Plan and what is another modality.
10. Practitioners should not state or imply that this system is better than any other.

Privacy and find Practitioner Database

Holistic Healing College holds a database of professional Soul Plan Practitioners. It is currently a free but discretionary service we provide to help expand and increase accessibility for the public and give a boost to practitioners. Many practitioners have benefited from referrals from us but unfortunately not everyone on the list as it comes down to who is the nearest to an enquirer (in areas e.g. parts of London where there are several nearby we give the nearest few choices). Most popular search areas are UK and the United States but we have regular requests from as far afield as Australia and India and more recently have had several requests for readings in South Africa.

To ensure quality recommendations we now prefer to recommend reciprocating Graduates with some reasonable amount of experience of giving professional sessions. Therefore we ask that if you would like to be included you get in touch with Sharron (info@holistichealingcollege.com) and ask to be included once you have had at least a year's experience of giving readings and have a reciprocating Soul Plan related webpage or website. In the meantime, we hold details of those certified in compliance with our GDPR compliant privacy policy, which can be viewed [here](#) and may contact you about Soul Plan related news but will never pass on your details to anyone other than a Soul Plan reading enquirer and in this case once you have fulfilled the criteria above and contacted us.

Welcome to the Soul Plan community!

Blue Marsden,
Course Director of Holistic Healing College
